I tried to be as detailed as possible, explain how you can create your backup through Windows and a guide on how to restore if needed. My backup software will be called "Create a Windows 10 backup on a flash drive with MacDrive and Windows 10 backup and restore" The only supported drive is a flash drive (USB) and the steps and software can be used just as easily by a right-handed person who installs his computer with the keyboard on the left side. The reason why it is called "left-handed" is that this video is designed for someone installing Windows 10 on a computer installed on a laptop which is handed over to right-handed people and computer users simply reverse the keys in the video. Endometriosis and the treatment of pain. The most common gynecologic disease worldwide is endometriosis. This is a heterogenous group of gynaecologic conditions that affect the pelvic cavity and can cause significant pain or infertility. The diagnosis is based on clinical and radiological evidence. The treatment includes conservative surgical therapy (diagnostic laparoscopy/laparotomy), medical therapy, and, lastly, the surgical removal of endometriotic implants (in case of the infertility). Surgery often contributes to symptom improvement, but the course of the disease is not affected by the choice of the conservative therapy. Moreover, the available options are not curative. Medical options include the use of gonadotropin-releasing hormone agonists and oral contraceptives. The recently developed selective estrogen receptor modulators may have therapeutic potential. Surgical treatment of endometriosis can be performed with minimal morbidity. However, the recurrence rate after excision of the endometriosis implants remains rather high. Therefore, close follow-up after surgery is necessary. In an experiment by scientists at the University of Wollongong in New South Wales, Australia, a single bullet was found to exert a force of up to 67,000 Newtons (N) of pressure—the equivalent of just over 64 times the force of gravity (see 09e8f5149f
