Bomb Bomb! is a puzzler set in a world of cute forest animals, interwoven by the "energy" of a sorcerer. To complete the game, the player must learn to control the energy and harness it to solve puzzles. There are no instructions, it's up to you to figure out how the game works and master the skill. Inside of the world, surrounded by his caring animal friends, lives a young man named Dylan. One day, while out in the forest, he is suddenly struck with a powerful force, and meets a mysterious woman, and together they go on a quest of adventure. To stop them from being swallowed by the story, a kind old toad who's better left unnamed will give the player a set of instructions to take with him. These help the player control the energy in the surrounding areas and solve puzzles. Through these puzzles and helping the animals, the player gains the power to solve all the mysteries of the story and master Bomb Bomb! Objectives There are no instructions or help for Bomb Bomb! It's up to the player to figure out how the game works and master the skill. "I only found four bugs in my nearly 2-hour game, the first one in the starting area, the second in the last level, the third one in the alleyway and the fourth one in the beginning of the second level. The game was great, absolutely smooth and without any bugs." Reviews9/10 Polish review "One of the most interesting and attractive games of the year." Reviews9/10 Game Revolution - check out the screenshots!Gamespot - "I'm really impressed with the 2D shooter, and if it's a hodgepodge of old B-movie aliens and classic Castle Wolfenstein concepts, it's definitely worth checking out." Full review here: "The game's at its best in the frenetic combat, a highly stylized use of cover and firepower that brings to mind a shotgunning James Dondero's Spy Hunter. Your arsenal includes a Tazer, baseball bat, Glock and even bazookas. "The mission design is unusually balanced. In addition to some fair but not too creative weapons and a decent variety of ammo types, you have ample of health and score multipliers to help keep you from a grimm fate." Reviews8.5/10 NeoGamer - quote : "In terms of fun, it's got my vote. It just oozes personality, and plays like it's going to be a treat to play. In the hands of someone who can make out a theme that works, it really feels like a different kind of shooter altogether, and if it only had more...a lot more. "But as it stands, it is a great shooter, and a great shooter with some glaring problems that could have been a fun element if solved. Castle Wolfenstein looks like a winner to me, and I can't wait to play more from them. I hope their next project turns out even better than this." Reviews9/10 GameZombie - quote: "Castle Wolfenstein is a really fun game. It has excellent AI, a beautiful and unique design, good game-play, an amazing soundtrack, and it's all voiced by a talented, funny

ings Superb when making charcoal composts, using Bayberry wood etc. It will not stain but burns readily. Yellowish lodgings: Wood bound in white: Excellent for Herb gardens and vegetable gardens. For herb you may use a mixture of thyme, lavender, wormwood and wood ash. The dried up portion is good for threading fishnets and making fishing nets. For raising flowers you may use a mixture of annatto, mullein and cloves Wood painted white, with the addition of parsley dust and other ingredients not mentioned can be used to make powerful Spices, sorrel, alder, dock, Tansy etc. The degree of the odour depends upon the locality of the wood, which must be known to the apothecary in the blending of the mixture. What is not about producing fire It works like ginger Wood: A tree with a large central trunk with a few large branches at an equal distance on each side of the trunk. The wood is of dark colour and of a close grain: it must be peeled off before using. In setting up the fire for burning sulphur the wood must be put into kindling wood. However, when it is properly handled and its ashes exhausted it does not burn so well as timber, but when charred it is of exceeding excellence. Here is a confirmed and approved recipe: Take equal parts of Wood and Apple and take a fine powder of the former, and divide it into three equal parts, and mix it equally with Vinegar; throw it into three vessels whereon hath been set a coal fire, and when it has inflamed and burned its utmost height, remove it; cover it and seal it carefully and keep it from the wind, and when it has lain three days, filter the vinegar, whereby with Apples or Stone-plums

mixed you shall see a fine preserve. This ancient and everlasting tree lives to a great age. Uses Bark - excellent for balms, for making the juice of a hypochondriac poultice, for the relief of fevers, in cases of convulsions, for the eyes and ears in inflammation, and frequently as a make-sure for epilepsy and consumptions. Stalks and flowers - excellent for colouring with green; like hops, for whitening linen, and as a starch for flouring pots, The Wood Decoction - A very simple recipe for extracting the dried wood into a tea like, without the necessity of being boiled; 2 handfuls of the wood

I'm not completely sure if this is because there's a lot of electronic music in the game, but I enjoy digging deeper into electronic music, so that may have played a role. I'm not entirely sure yet if all the tracks are finished, and I don't expect that I will be able to listen to the whole soundtrack for the time being, but I'll release the songs as soon as I finish them. If you have an account on my Patreon, you can have access to the instrument tracks of the recording sessions, when they are finished. To make it easier to find the perfect level, I've made a separate Music page that contains detailed information about the music's theme. You can check it out here:
