Chordoma is an uncommon and rare primary bone tumour (PBT), arising from remnants of the notochord, but it is locally aggressive and metastasizes frequently. A significant proportion of patients will have either locally advanced or metastatic disease at diagnosis. We explored the survival data of patients with unresectable sacral chordoma after partial or complete sacrectomy. Individual patient data were extracted from 39 studies and meta-analysed using a mixed-effects Cox proportional hazards model. The total cohort included 495 patients and mean follow-up was 4.1years. Post-operative local control (PLC) rates at 5years were 74% (95%CI: 71-77%) and 85% (95%CI: 81-89%) for partial and complete sacrectomy, respectively, which was non-significant. 5- and 10-year overall survival (OS) rates for the partial sacrectomy group were 31% (95%CI: 26-37%) and 17% (95%CI: 13-22%), respectively, while corresponding values for complete sacrectomy were 21% (95%CI: 16-27%) and 13% (95%CI: 9-18%). We confirmed that OS is significantly lower in patients after complete sacrect 0cc13bf012

Q: How to Set to Shown Field as Default I'm not really sure how to phrase my question but I'm trying to figure out how to make a field at the front end the default field to use when creating a new entry. To clarify what I mean. I want this: protected function

```
_prepareForm() { $this->setMethod('post');  
    $this->setAction('/admin/contact');  
    $this->setTemplate('contactform.phtml');  
    parent::_prepareForm(); } 
```

But instead of loading contactform.phtml, I want the block contactform to load. Is this something I can do? A: You can modify the model (if you are overriding the model, don't do it, that's the wrong approach) by overriding the setDefaultModel function.
